## AWAIT NEXT MOVE OF SNOOK COUNSEL

Attorneys Scheduled to Discuss Plans with Prisoner Today

COLUMBUS, July 17.—With the scheduled trial of Dr. James Howard Snook, confessed killer of a lawyer, at the Ohio Statehouse today, the defense attorneys are planning to confer with the prisoner today.

The motion does not have to be filed until Monday, and it is believed that the trial will be delayed considerably and the snail's pace hearing itself will likely not take place for three or four days.

Defense attorneys—Bicketts, John D. Seidel and C. M. Schert of Cleveland—are planning to confer with Dr. Snook in Franklin county jail to discuss the case.

Meanwhile preparations have been completed to handle the large crowds which are expected to jam the criminal courtroom.

Iron gates have been thrown across one entrance point in the hall. Arrangements have also been made for the seating of 50 newspaper correspondents in the courtroom itself.

Reservations for hundreds of many feature writers from large city newspapers including Chicago and New York dailies, have made reservations.

James F. Kilgallen of New York, star reporter for International News Service, will be at the trial. He is especially well known to Ohio readers having written the accounts of the George Bremer and Velma West cases.

## TWO MEN UNDER SPECIAL GUARD

Special Grand Jury To Act in Case of Pair Arrested at Dayton

DALTON, July 17.—Ohio justice moved at a very swift pace today in disposing of the cases of Thomas Melvill Ombis admitted burglar and professor of disguise, and George Ombis, who were arrested here Monday night on a charge of possessing burglar tools.

A special session of the Montgomery county grand jury will consider the cases today.

The men described by police as two tough hoppers, are being held under double guard. Besides being locked in a cell, policemen armed with sawed off shot guns are patrolling the outside of the cell.

They were taken into custody Monday night when the were seen talking to two local reformers. A subsequent search revealed that both men carried revolvers and the finest set of burglar tools ever confiscated by local police was found in the men's high priced automobile.

The grand jury it is said will consider charges of possession of burglar tools and possibly charges of carrying concealed weapons.

**NEW DICTATOR SIX \$995** AT THE FACTORY

Compare this smart new six, by the Builder of Champions, with cars that cost more. Compare it for style—for fine-car beauty of line, and color and appointments—for roominess and riding ease! Compare it for speed and spirit, remembering its gallant predecessor, the champion Dictator which sped 5,000 miles in 4,751 minutes!

- 115-inch wheelbase.
- Rubber engine mountings and bronze-backed and babbit-faced crankshaft bearings provide maximum life and smoothness.
- Lanchester vibration dampener
- Timken tapered roller bearings in rear axle, front and rear wheels and steering knuckles.
- Oil filter, gasoline filter and crankcase ventilating system insure maximum engine efficiency.
- Fuel pump insures constant, adequate flow of gasoline, regardless of speed or grade.
- Thermostatically controlled cooling system retards flow of water until motor has reached precisely correct temperature for highest operating efficiency.
- Double-drop frame of new compound flange design—far costlier but sturdier, safer and permitting graceful lowness of body lines.
- Hydraulic shock absorbers, front and rear.
- Genuine mohair upholstery
- Hardware of soft Butler finish, further beautified by an etched design.
- Full-vision, full-ventilated bodies of steel over hardwood foundation—the accepted fine car coachcraft.
- One-piece steel core safety steering wheel.
- Adjustable steering wheel and front seat.
- Amplified action 4-wheel brakes which stop The Dictator in half the distance accepted as standard.
- Tarnish-proof chromium plating over nickel on all exterior brightwork.
- Coincidental lock to ignition and steering assures Dictator owners lowest theft insurance rates.
- The Dictator may be driven 40 miles per hour the day it is delivered—the result of advanced engineering, precision workmanship and careful inspection.

## SEAT PRICE CUT

New Schedule for State Fair Grandstand Announced

COLUMBUS, July 17.—Following a recent conference between Governor Myers, J. Cooper and Agricultural Director Perry Green, the governor's office today announced a 25-cent cut would be made in all grandstand admission prices in this year's state fair.

Grandstand prices formerly were 75 cents \$1 and \$1.25. These will be reduced to 50 cents 75 cents and \$1. The gate admission price of 25 cents will remain the same.

Director Green declared this year's exhibits would break all previous records and that it was the administration's idea to give the public the benefit of possible increased earnings from this year. The director announced that elaborate plans were being made for afternoon and evening entertainment.

The state fair opens Monday, August 24, for one week. Plans are being made with railway and other urban companies to run special excursions into Columbus from all parts of the state.

## CO-ED FINED \$10, MAY PREFER JAIL

Arrested with Two Men for  
Activities in Communist  
Group

PITTSBURGH, July 17.—A fine of \$10 in Mrs. C. J. court yesterday for her activities in the young Communist organization, Mrs. E. E. Lehigh, 18 University of Pittsburgh, may prefer to go to jail instead of pay the fine.

Henry E. Lehigh, counsel for Mrs. Lehigh, and for William Albertson, 1822 North 10th, for activities with the Liberal club and Sam Herman, 22 North 10th, of the Communist Youth League, indicated, the fine may prefer 10-day jail sentence.

Lehigh asked time for them to consider.

During the hearing, Mrs. Lehigh told Mrs. Lehigh, 1822 North 10th, she would make a speech any time she had the opportunity, without a focus.

This was the charge on which the three were fined when they attempted to conduct a meeting to arouse sympathy for striking textile workers in North Carolina.

keeping up with the Joneses

A larger income may make it possible for the Joneses to have a much finer home than the Browns—but the Browns can own just as fine a car. For it does not require a big income to own a De Soto Six. And with a De Soto Six the Browns have the pride and satisfaction of driving a Chrysler-built automobile—with the ability to out-perform most other cars on the road.

De Soto Six is obviously smart and stylish; up-to-the-minute in mode. And it has not taken the motoring public long to find that De Soto Six is also exceptionally comfortable and easy riding, powerful, speedy and safe. Record-breaking sales figures for a first year car are proof enough of its established and growing popularity.

Combine these qualities with low price, low maintenance cost and assured long life. The reason is plain why those who insist on smartness and performance, but must consider economy, are finding De Soto Six the most satisfactory car.

Not content with killing her jaywalking  
 ordinance, Chicago has abandoned all efforts  
 to prescribe the styles of bathing suits  
 which may be worn on her beaches, from  
 which, we take it, everything goes in Chicago.

July wheat jumped eight cents Monday,  
 reaching \$1.37 1/2, an advance of forty-two  
 cents over the low mark at the end of May.  
 That farm relief commission had better get  
 a hustle on itself, or it will find its occu-  
 pation gone.

Statistics show that the convictions for  
 murders and robberies in Milwaukee are  
 keeping steady pace with commission-  
 ers of crimes. It is not impossible that Mil-  
 waukee may attain an absolutely new ground  
 for fame.

A house in Brockton, Massachusetts, was  
 set afire as the result of the thoughtlessness  
 of the mistress who set a glass jug on a rug  
 which was exposed to the sunlight. Many  
 a home has been menaced by a jug, but this  
 is the first case, we can recall where one has  
 set a home afire.

Captain Arthur Wilke, of the Hamburg-  
 American liner, Albert Ballin, arriving in  
 New York, reports having run into large  
 schools of whales on each of his last two  
 trips, and that, having run into one on the  
 previous trip, he passed through the school  
 on the latter trip at half speed in order that  
 he might dodge the mammals and not repeat  
 the terrible impact experienced on the former  
 trip. Byron animal life seems to be exerting  
 itself to hoist Atlantic trips this year by  
 making them interesting.

## Eating a Way to Health.

If the manifest consensus of opinion of  
 the delegates to the convention of the Amer-  
 ican Medical association in Portland, Ore-  
 gon, may be taken as authority, many people  
 who are eating their way into the grave may,  
 by a change of diet, eat their way into many  
 years of extended usefulness.

One of the speakers revealed that a great  
 majority of his illing patients were such be-  
 cause of eating improper foods and that  
 those who changed their diet in almost all  
 cases showed speedy improvement and be-  
 came well.

Dr. Morris Fishbein, of Chicago, editor of  
 the Journal of the American Medical Association,  
 made a special point of the need of care  
 in his diet which the man of fifty should  
 exercise. "At fifty," he said, "the average  
 man may look forward to living just past  
 seventy. But if he watches his diet, and  
 observes the simple rules of hygiene, he shall  
 live from five to seven and a half years  
 longer. If you would live until seventy-five  
 instead of seventy, watch your dinner plate."

Dr. Lowell Langstroth, of San Francisco,  
 who has become prominent in his profession  
 because of his dietary researches, told of  
 his study of 501 cases which, he said, repre-  
 sented a cross section of American life, and  
 he gave figures showing how those cases,  
 which included high blood pressure, harden-  
 ing of the arteries, rheumatism, diabetes,  
 heart disease and a number of cases of un-  
 explained headaches, had been greatly im-  
 proved or completely relieved by the cor-  
 rective diet. Referring to the 501 cases, he  
 went on to say:

"Bread, meat, potatoes, all forms of sweet  
 dessert, and the accessory foods, butter,  
 cream, sugar, and mayonnaise, formed the  
 bulk of the average diet, actually seventy-  
 nine per cent. Bread and butter were the  
 largest single items, sixteen and seventeen  
 per cent, respectively. For the most part,  
 these foods are naturally or artificially con-  
 centrated and free from residue, and at least  
 the bread and meat have an acid ash. With  
 exception of butter and cream, they are  
 vitamin poor.

"The protective foods formed twelve per  
 cent. of the average diet. The commonest of  
 these are eggs, milk, fruit, vegetables and  
 lettuce. The vitamins which they contain so  
 abundantly have been shown by animal ex-  
 periments to be necessary for growth, repro-  
 duction, and the prevention of the common  
 degenerative diseases mentioned."

Throughout the convention there was not  
 a dissenting voice to the manifestly general  
 view of the assembled physicians that the  
 day of the "pill-vending" doctor is passing  
 and that of the "physician-dietitian" is dawning;  
 that diet had in recent years become  
 recognized as one of the physician's greatest  
 aids; and that in the very near future there  
 would be general recognition, if it is not  
 practically already here, that it was not the  
 work of the physician to cure people who  
 are ill, but rather to keep them from be-  
 coming ill; that it is another case of the  
 ounce of prevention being worth a pound of  
 cure.

## "Ain't Goin' To Be No Core."

The wonderful development of the motor  
 car industry in the United States is brought  
 out strikingly by the announcement of the  
 automotive division of the federal depart-  
 ment of commerce that, of the grand total  
 of 32,023,690 cars in the world, 25,551,500,  
 or more than ninety per cent., were manu-  
 factured in the United States, American-made  
 cars being represented by 24,567,000 pas-  
 senger cars and 3,984,500 trucks. Almost  
 every other motor car outside continental  
 United States and Canada, the announcement  
 states, is American-made, 2,231,600 of the  
 6,336,845 of the cars operated outside of  
 Canada and the United States being Ameri-  
 can passenger cars and 649,380 being Ameri-  
 can-made trucks and buses.

It may be recalled that back as far as 1922  
 there was talk about the saturation point in  
 the motor car industry and how far it might  
 be away. It is interesting in this connection  
 to note that there was at the end of that  
 year an estimated registration of 14,618,944,  
 which is less than half the number of cars in  
 operation at the beginning of the present  
 year. During the same period the increase in  
 cars operated in the United States has been  
 12,330,008, an increase of over 100 per cent.,  
 as there were 12,139,853 cars in operation  
 at the close of 1922 and 24,629,921 in op-  
 eration here at the end of 1928.

During the same period the increase in the  
 use of motor cars in the world outside of  
 this country was 6,019,672 or 210 per cent.  
 over the total of 2,378,991 in use in 1922.

And despite this immense increase in the  
 use of motor cars, there is no better indication  
 of the whereabouts of the saturation point to-  
 day than there was seven years ago.

"The automobile industry in the United  
 States," the announcement goes on to say,  
 "outpaces all other manufacturing industries.  
 Automobiles also rank first in exports of  
 manufactured products from the United States.  
 Exports alone from the United States and  
 Canada nearly equal the combined production  
 of the rest of the world.

"With these facts before us, it is not dif-  
 ficult to understand why the United States  
 and Canada support such a large majority of  
 the world's motor cars. Just as our manu-  
 facturers build and export more automobiles  
 than the rest of the world combined, we also  
 are the world's heaviest consumer.

"At the beginning of 1929, the automobiles  
 circulating in the United States and Canada  
 numbered 25,691,751, or over eighty per  
 cent. of the world total—a proportion that in-  
 cludes 82.7 per cent. of the world's passenger  
 cars and 66.4 per cent. of its trucks and  
 buses."

In the face of such a showing on the de-  
 partment of commerce has made, talk regard-  
 ing the automobile saturation point, at least  
 so far as the near future is concerned, is  
 somewhat reminiscent of the reply of the small  
 boy asked for the core of his apple—"There  
 ain't goin' to be no core!"

We note that the flight of the "Unlin"  
 Bowler "unquestionably has added" the quest  
 of an Arctic air route to Europe, which re-  
 minds us that for a century or such a matter  
 there was a quest for a northwest passage,  
 which, though it is said to have been found,  
 has never been utilized.

One of two robbers was killed and the  
 other captured by New York police as the  
 two were endeavoring to make a getaway  
 from a drug store which they had held up  
 and secured \$221. The recent police order to  
 shoot first and investigate later, seems to  
 be bearing fruit in New York.

Notwithstanding the payment of \$37,500-  
 000 to the Vatican, Italy closed her fiscal  
 year with a budget balance of \$19,100,000.  
 Mr. Mussolini does a little more saber rattling  
 than may be deemed absolutely necessary, but  
 just the same he has worked wonders in Italy.

Premier Pildas de Rivera has announced  
 that he will approve no airplane flights out-  
 side Spain, either transatlantic or European,  
 by Spanish military aviators for eight or nine  
 months to come. Not such a bad idea. It  
 might well be emulated by the governments  
 of all lands.

Five former Phoenix, Arizona, policemen  
 are being held for the murder of two men  
 and the wounding of another in a frame-up  
 of a drug store hold-up there early in the  
 present year. It strikes us that that's carry-  
 ing police initiative a bit too far.

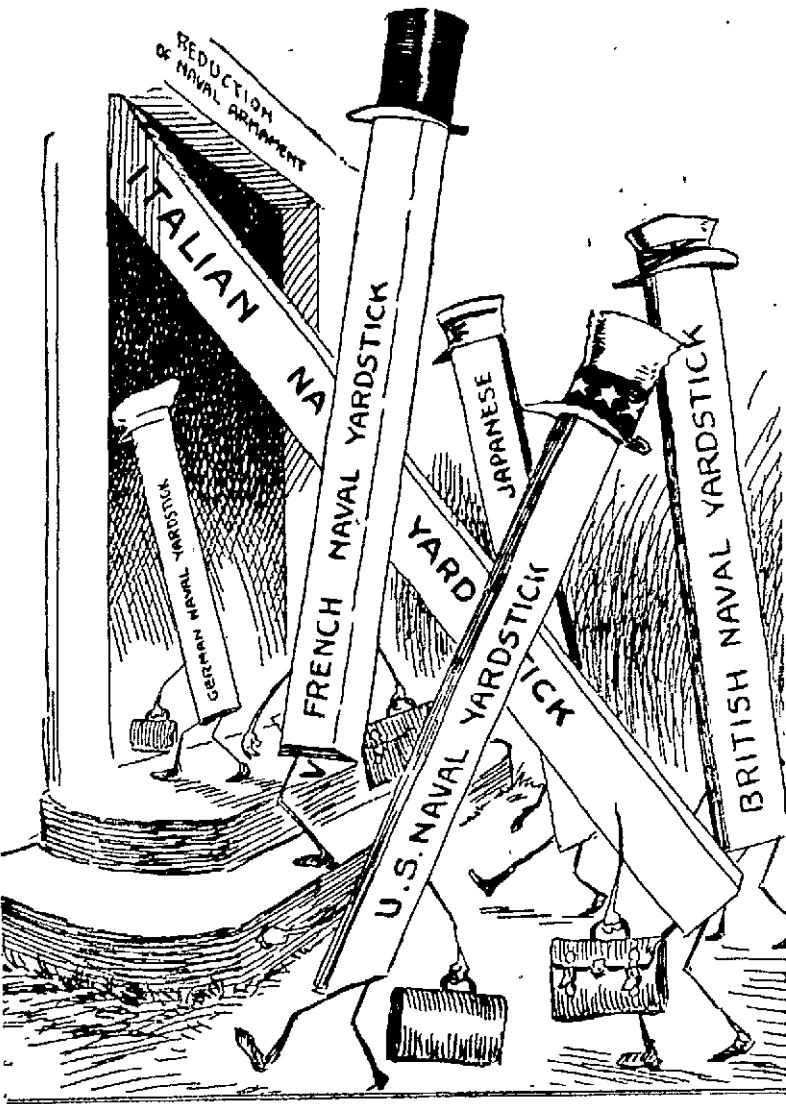

A missionary returned from Africa tells  
 about a little bird to be found along the  
 Zambezi which makes hard liquor by making  
 a hole in the river bank in which it deposits  
 fruits, later to come back, open up the clay  
 vat, take a sip and start out looking for a  
 lion. That's not so strange. We have a lot  
 of birds up here, both big and little, who do  
 the same thing in their collars.

The British Labor government has barred  
 liquor advertisements from postoffice build-  
 ings and publications. Who knows? "Pussy-  
 foot" Johnson may have been right when he  
 predicted that it wouldn't be so many years  
 till rum-soaked Great Britain had prohibition.

In her most recent test, the Dornier twelve-  
 motor plane, DO-X, weighing with its load  
 thirty-seven tons, left the water in twenty-  
 eight seconds, although but eight of her  
 motors were being operated, and easily rose to  
 a height of a hundred feet. Even her critics,  
 are coming to the belief that at last there  
 has been invented a flying boat that can fly.

The city council of Canton has asked the  
 commissioners of Stark county to dispose of  
 the county fairground, which is held to be  
 arresting the development of a fine residential  
 section of the city, and purchase a site else-  
 where. Why another site? The county fair  
 is no longer the exposition of county products  
 it once was, but rather a race meeting with  
 amusement and advertising adjuncts. Why  
 not abandon it as a dying institution?

## THE CONFERENCE OF NAVAL YARDSTICKS.

## Keep Food at Low Temperature.

BY ROYAL S. COPELAND, M. D.

Summer is a trying time for little babies. No  
 matter how watchful the mother is all the rest  
 of the year, she must take special pains in hot  
 weather. No detail is too small to be overlooked.  
 Even a husky mother suffers the effects of hot  
 weather. If this is true, think of how trying  
 the hot days and nights are for the frail infant.  
 Another factor is the danger of milk spoilage.  
 "That fine product of the farm reaches your door  
 in perfect condition. It is delivered even in the  
 large cities at a very low temperature. It must  
 be kept so.

Exposed to room temperature, even for a very  
 few hours, it is sure to be becoming un-  
 friendly to babies. There can be no backyard cure  
 of this precious food. The supply must be kept  
 cool until feeding time arrives.

One of the first effects of giving contaminated  
 milk, is an upset digestion. The stomach rebels.  
 Next, diarrhea is noted. This can be very  
 weakening.

We look upon diarrhea as an effort on the  
 part of the system to rid itself of the disturbing  
 substances in the blood. These serve to irritate  
 the intestine.

It makes no difference whether it is the acidity  
 set up by the bad milk, or because the milk  
 contains and produces irritating curds. Whatever  
 is the exact cause makes little difference. The  
 infant has diarrhea and it must be checked.

The symptom may be the effect of a wrong  
 mixture for the feedings. Too much cream—"top  
 milk" or too much sugar. These are causes for  
 diarrhea.

Children differ a lot in their tendencies to in-  
 testinal troubles. Even in the same family there  
 is a lot of difference. One of the twins may have  
 this tendency and the other may appear to be safe  
 from such ailments.

If there is such a weakness great care must be  
 taken to guard the child from exposure to great  
 heat. The coolest place in the house must be  
 given over to the baby.

Sudden changes in temperature are disturbing  
 Fresh air is essential, no matter what the weather  
 is. But on cool or cold days guard the child  
 against the other extremes of weather.

Should a sudden attack of diarrhea come on,  
 stop the feedings. Give only boiled and cooled  
 water. Plenty of this is recommended. Don't re-  
 turn to food until your doctor advises you to do so.

Sometimes very weak tea or rice water will  
 be useful. I mention these for the benefit of  
 some mother who is far distant from a doctor. In  
 all cases, where he is within reach, the family  
 physician should be consulted.

## ANSWERS TO HEALTH QUERIES

MRS. W. J. C. Q.—What will help me to re-  
 duce? I have tried tablets, but am afraid to take  
 any more. Would a glass of milk with the juice  
 of an orange taken after meals be of benefit in  
 reducing? It sounds my stomach.

A.—Proper diet, avoiding too many sweets and  
 starches and some systematic exercise daily should  
 bring about a reduction in weight safely and  
 surely. No milk and orange juice should not be  
 taken together.

MARIE R. Q.—How can constipation be over-  
 come?

A.—The diet must be corrected. Avoid foods  
 mainly rich in starches and fats. Add stewed  
 fruits and bran to your diet.

J. B. Q.—The large joint on my foot becomes  
 sore and red at times. What causes this?

A.—May be due to arthritis. Send self-ad-  
 dressed stamped envelope for further particulars  
 and repeat your question.

JOYCE Q.—Can blackheads be removed?

A.—Yes. For information send a self-ad-  
 dressed stamped envelope and repeat your question.

J. L. Q.—What is the cause of hives?

A.—A nervous condition, constipation, food-  
 poisoning, and, in some instances, a kidney con-  
 dition may be responsible for hives.

CONSTANT READER. Q.—Do you advise  
 treatment for blackheads and pimples?

A.—Yes. For full particulars send a self-ad-  
 dressed stamped envelope and repeat your ques-  
 tion.

F. L. U. Q.—What will promote the growth of  
 eyelashes?

A.—Apply one per cent. yellow oxide of mercury  
 ointment to the lashes and brown every night be-  
 fore retiring.—Copyright, 1929, Newspaper Fea-  
 ture Service, Inc.

## Editorial Opinion.

## THE ICE PATROL

Many hard things have been said lately about  
 the United States customs on account of the  
 methods adopted by that branch of the service  
 detailed to build down "run-runners," but an article  
 which we publish today serves to remind us that  
 there are other and more commendable duties be-  
 ing performed off the eastern seaboard of America,  
 with the loyalty, efficiency and entire absence of  
 publicity, which are the qualities of true patri-  
 otism. If a few cutters, more conscientious  
 than merciful, have earned an unfavorable reputa-  
 tion for endangering life by too reckless gunn-  
 ing, the gallant work of the North Atlantic ice patrol  
 in saving ships from disaster among drifting ice-  
 bergs provides honorable compensation. It will  
 be recalled that the ice patrol was inaugurated in  
 1912, after the terrible Titanic tragedy, when over  
 1,500 lives were lost before help would arrive.  
 Ever since, on the first of April every year, two  
 fever then the United States cutter, maintained by fourteen of  
 the maritime nations, working in fifteen-  
 day relays to watch shipping of the exact position  
 of the treacherous bergs and flee ice from the  
 Arctic.

It is a fine testimony both to the vigilance  
 of the patrol and to the efficiency of modern wireless  
 that during the sixteen years which have inter-  
 vened not a single life has been lost through colli-  
 sion with icebergs. The responsibility of the  
 watchers is great, and the strain must be tire-  
 some. Last year alone, it is reported, no  
 fewer than 151 ships were in the dubious waters in  
 quest of rest, relief from the tedium and the  
 struggle for existence.

The mountains and the seas call—the lakes and  
 the rivers and the woodlands. We take our days,  
 or weeks, or according to the situation of our  
 environment and the condition of our financial  
 affairs. We work strenuously, and there comes a  
 time when we want to play. We want to indulge  
 in golf, or tennis, or rowing, or swimming, or  
 just lying in the sand on the shores of some  
 body of water. We want to place our business  
 and working maxims and habits for a time in  
 cold storage, so to speak. We want to get away  
 from rust and wear of toil. We want to shout  
 and sing and wander, as our far forefathers did  
 in the days ago. So we go, mostly back as near  
 nature as we can get. And that is wise.

Rest means renewed energy. Employers have  
 learned this truth; they not only take advantage  
 of the vacation time themselves, but now on to  
 their employees this precious privilege. From fac-  
 tory and store and business office at this season  
 pour the multitudes, to win a bit of real life and  
 health and happiness by winding ways and moun-  
 tainous waters, on mountain heights or in fair  
 fields—anywhere that promises variety, change  
 from the humdrum routine of necessary daily ac-  
 tivity.—Cincinnati Enquirer.

## Dinner Stories.

"Do you favor farm relief?"  
 "I don't know much about it practically,"  
 answered Senator Sorghum, "but I'm strong  
 for it rhetorically."

"Would you marry a millionaire?"  
 "A millionaire is always a temptation,"  
 answered Miss Cayenne. "But when a mil-  
 lion is in sight, a wise girl waits to see what  
 goes with it."

A farmer was trying to fill out a claim  
 sheet for damages inflicted by the railway.  
 His cow had been killed, and he so entered it  
 on the blank. All went well until he came  
 to the question: Disposition of the carcass?  
 He puzzled for a time, then filled in—"Kind  
 and gentle."

The mill foreman came upon two darkies  
 walking slowly up the road, single file.  
 "Say, you, why ain't you worthless niggers  
 working?"  
 "We're working, boss, sho' nuff. We're  
 carrying this plank up to the mill."  
 "What plank? I don't see any plank."  
 "Well, fo' lawd's sake, Abe! Ef we ain't  
 gone an' forgot de plank!"

## The Holy Land.

## BY TEMPLE MANNING.

It is with reverence that one approaches  
 the Holy Land. Be he Christian, Jew or pa-  
 gan, he can not, if he is a man of any intel-  
 ligence and sympathy, fail to realize that he  
 is treading ground which has been sacred,  
 whose traditions and doctrines have been  
 held by struggle and death.

And one can not but realize that the Holy  
 Land was the birthplace of a new era of civil-  
 ization. And so, regardless of one's faith,  
 this strip of land along the extreme eastern  
 end of the Mediterranean sea, is fraught with  
 historic interest.

Coming down from Asia Minor, we will  
 stop at Haifa, which is really the port of  
 Palestine. Indeed, Haifa is a part of the first  
 order and the largest liners plying the Medi-  
 terranean are readily accommodated. Jaffa,  
 further south, is another port, but it is gen-  
 erally rated as one of the most difficult ports  
 in the world, and, as a result, few passenger  
 vessels anchor there.

Let us start inland from Haifa. We shall  
 pass many spots known to history—from the  
 time of Christ down through the recent  
 World war.

The road follows the base of Mount Carmel  
 for several miles, then meanders across the  
 Plain of Esdraelon. Here, according to the  
 Bible accounts, Saul and Jonathan died. Here  
 also, says the Old Testament, Barak and  
 Gideon waged their valorous conflicts. In  
 later centuries the Crusaders fought the In-  
 fids, Napoleon campaigned, and finally the  
 British armies in the World war waged a  
 bitter struggle against the Turks.

The first little town to be reached after we  
 leave Haifa is Nazareth. In the spring and  
 summer the little city set among the low  
 hills is particularly attractive. The white  
 walls of the cottages make a delightful scene.  
 In a place where Jesus passed His childhood  
 seems with places reputed to be those referred  
 to in the Bible. There is little to prove their  
 authenticity, however, but they are pictur-  
 esque and one never regrets visiting them.

The Virgin's house, the synagogue where  
 Jesus taught, the workshop of Joseph. The  
 spots which are pointed out as being these  
 places may be all they are reputed to be, or  
 they may not. But one knows of a certainty  
 that Nazareth is where Jesus spent His boy-  
 hood and young manhood, and, as such, is a  
 memorable place.

Nazareth boasts one antiquity which is be-  
 yond suspicion. That is the spring which  
 gushes out of the hillside just outside the  
 city. It is the only spring in Nazareth, and,  
 as such, it is almost certain that it is the  
 one to which Mary and the child Jesus used  
 to repair and of which we have heard so much  
 in Bible stories. It is known as "Mary's  
 Well."

The Nazarenes have changed but little  
 since the time of Jesus. They are largely an  
 agricultural people and, in their dress, gress  
 to the simple. On festival days particularly the  
 women appear in the brightest of colors and  
 bedecked with jewelry. This, incidentally,  
 often takes the form of coins strung together  
 into bands which are worn around the fore-  
 head and across the breast. Nearly every  
 woman on these festival days will wear a  
 brightly-embroidered jacket which for color  
 would put to shame Joseph's famous cloak.

## Twenty Years Ago.

It was Saturday, July 17,  
 By an agreement with and between the Chi-  
 cago, Milwaukee and St. Paul and the  
 Wabash, the latter got an outlet to the North-  
 west and the latter and the former a con-  
 necting link to the Mexican gulf.

A son was born to Mr. and Mrs. Walter  
 Money, of the Boulevard.  
 The baby, named after a ladder, was  
 working at the S. H. Bartram property,  
 fracturing a rib and sustaining other in-  
 juries.

Farrell led the Ohio-State stickers with a  
 percentage of 310, Williams, also of the  
 Marion team, having dropped to 302.

Miss Rose Cusick and Mr. Henry Hild were  
 married by Rev. Father Joseph M. Denning.  
 Miss Hope Fisher was enjoying a vacation  
 in the Adirondacks.

Hancock was given perfect support, but  
 Marion was able to get but one hit off  
 Deane and failed to score, while Lan-  
 caster made two runs.

The Bucyrus Telegraph quoted the Bucyrus  
 Journal of November 17, 1879, relating how  
 three days before that date, David Mel-  
 thaler, of Wheelstone township, Crawford  
 county, had been struck by a meteor and in-  
 stantly killed, the meteor passing entirely  
 through his body. That a human being had  
 never been killed by a meteor was being  
 claimed twenty years ago.

## Social Activities

The month of July is the month during all the year, when people enjoy an informal family gathering and a picnic lunch in the country.

Marion hostesses are learning the secret of delightful entertainments, through invitations to small groups of intimate friends of their families. Attractive buffet or picnic luncheons, suppers are served on the porches and lawns of the homes, after which an afternoon or evening of cards or a social time, is enjoyed.

This week, luncheons have been given at the Marion Country club and several teas and luncheons have been given in the homes of the hostesses. Bridge clubs, the survivors of long winter meetings, are being entertained at intervals during the summer months and an air of festivity about the month of June, with its rounds of parties for brides-to-be, pervades the social life of the city.

If a man is a failure in a small town, everybody knows it; so he emigrates to the city.

Pictures with History Appear in Baptist Lesson Quarterly

The quarterly Sunday school publication of the American Baptist Publication Co., contains a group picture of the Baptist class of Trinity Baptist church and a single picture of Mrs. J. S. "Mother" Rayl, for whom the class is named.

The picture, together with a history of the class and its activities, written by Mrs. W. A. Baker, are in a prominent place in the publication, which is sent to Baptist churches over the United States, for study during July, August and September.

The Rayl class, with a membership of more than 175, ranks high in the Baptist Sunday school classes over the state. Alma Pickens, formerly of this city, and now of Washington, Pa., sent Mrs. Rayl a letter of congratulations after having read the article in the quarterly which she is studying. The letter was read at a meeting of the class last night at the church.

**Here's Next On List**  
Women To Wear Trousers Within Year, Is Forecast

BOSTON, July 17—Trousers will be worn by women about the house within a year—the evolution of the fad which began with the "daring" bloomers worn by the "dilettante" few during the bicycling craze during the "gay nineties."

This rather startling prediction and statement was made today in the report of the style advisory board of the National Association of Cotton Manufacturers to that body.

"Beach pajamas, overalls and trousers cut sailor fashion with a pirate dash of glaring color, are the 1929 mode, and within a year women throughout the country will don trousers for house wear and even porch and lawn wear," the report declared.

The comfort of trousers for women, particularly in all branches of sport, riding, golf, tennis, yachting, bathing and hiking, has made the fashion an ally of the cotton industry in a world which for the past few years decreed short skirts.

"Bloomers worn with bicycling costumes was the beginning for the present vogue of trousers for women," the stylists said.

"At that time the wearers were considered daring, and there was a loud outcry against disappearing femininity, breaking up of homes and subversion of men. But in this modern age of equality of sexes all that has gone."

The time began to change with the entrance of women into the field of war work. It was considered a noble duty to discard feminine frivolities. The furthest appeared, women donned overalls in factories, and uniforms were almost general.

"The demand for sun and air brought the idea out into the open. In Venice, on the Lido, smart society found that it could be both smart and comfortable lying about the beach all day in pajamas. The sun tan fashion was then so new, hairless suits had not come into their own, that there was a cry for more protection than the bathing suit would give. Besides a wet bathing suit is not the most comfortable thing in the world."

"Cotton overalls, whether printed or plain, is the latest development, to be worn with large hats of rough straw or cotton fabric."

"It seems a curious thing," the experts concluded, "that the more feminine the mode grows, for certainly the tendency has been all that way, the more intrigued women become with the possibility of trousers."

**HOLDS HUSBAND IS "KING OF HOME"**  
Wife Can't Be Convicted of Home Brew Operations, Judge Rules

DAYTON, July 17—When a woman manufactures and sells "home brew" at the direction of her husband, she is not guilty of violating the prohibition laws.

A man is "king in his own home," and therefore the husband is responsible for what occurs there.

These two facts were glimpsed today from a ruling by Probate Judge William C. Wiseman of Dayton.

**Personal Mention**

Miss Josephine Nash, accompanied by Mrs. H. N. Pickett, both of Cleveland, are guests of Miss Nash's parents, Mr. and Mrs. C. C. Nash, South High st. Miss Nash is a student nurse at St. Sinai hospital in Cleveland.

Mr. and Mrs. L. B. Hill, 217 West Church st., have returned from a two weeks motor trip in Tennessee and Kentucky.

Miss Fern Ullmer, Dorcas McCullough, Pauline Schultz and Mrs. Milton Giles have returned home after a motor trip through the eastern states.

Mr. and Mrs. A. L. Sraub and Mrs. S. M. Crum, of Shelby, have returned to their home after spending the week end with Mrs. Della Harey, of Vine st., and other relatives.

**PARTY NOT HELD**

Through a false report to The Star, a party was announced last night at the home of Mrs. J. C. Ditty, 291 Edward st., as hostess to a party of friends Sunday night. The name and address of Mrs. Ditty appeared at the bottom of the report, which was accepted in good faith for publication. Information received today, however, revealed that the party was not held. There is a severe fine and penalty set by the state for anyone who gives false statements to a newspaper.

**BIRTHS**

A daughter was born Sunday night to Mr. and Mrs. E. C. Spears, 269 Patterson st.

Word has been received here of the birth of a son July 11 to the Rev. and Mrs. William Fritz of Kodakman, British West India. Mr. Fritz is engaged in missionary work among the islands of British West India.

Fritz before her marriage was Miss Lola Bryson of Harding Highway east.

**WIPES GREASY THUMB-PRINT OFF PAINT 143 TIMES**

Famous cleaning product, new to homes, leaves paint as good and as lustrous as new

**MAKE TEST YOURSELF**

Here is a special cleaning product for painted surfaces. Great hospitals, hotels and office buildings have refused to use anything else for years. Now for the first time it is offered to homes. Its name is Wyandot.

Wyandot is superior to anything you ever tried. It can be used constantly on the finest paint work without ever dulling the color. Recently this fact was conclusively demonstrated to a woman who didn't believe there was a product made which was safe for paint.

A glossy white door was thumb-printed with greasy dirt. Wyandot removed every trace of it. The operation was repeated in exactly the same spot 143 times before the slightest wear showed under a microscope. (And you know how quickly your unsaid eyes can see the effects of "pot-and-pain" cleaners on paint and porcelain.) Next, less to say the woman was convinced.

Grosset who has barely been civil

he'd been watching my work and

# Jubilee's Pardner

A Story of Humorous Boyhood Adventure

By JUDD MORTIMER LEWIS

WEDNESDAY, and warm and  
hummy. I didn't get to oven see  
the bunch when I went after the cows  
last night. So when I woke up this  
morning, I hopped out of bed right  
away and pulled Jubilee and half of  
the bed clothes off the bed by the  
tail and let him down and got into  
my britches as soon as I could and  
slid downstairs and out to the barn  
with the milk the cows, and I  
was so early that I had them both  
done all but two paces by the time  
the bunch was in there.

This had a stone bruise and Goop  
had felt and skinned one elbow, and  
they told me they had the best time  
ever and they said they met a strange  
cat out there and Peanut liked him.  
I said he must have been a strange  
kid if he let Peanut lick him. But I  
must have been sore because I  
wasn't along to make me say that, for  
Peanut is all right, and so is all my  
bunch. But it made Peanut sore, and  
he swelled up and asked me if I  
would be a strange kid if he licked me,  
and I grinned at him and said I  
certainly would, and he would be a  
strange kid if he tried it and he said  
I wasn't so much. So I put a piece of  
bark on my shoulder and dashed him  
to knock it off and he wouldn't do it  
and then I dashed him and any one  
other kid to knock it off, and they all  
said they didn't have anything against  
me. I was kinda glad they didn't  
because two kids can lick almost any  
kid if they sail in and fight. But if  
a fella is captain of a bunch he has  
got to take a chance once in a while.

I told them about Annabelle Lee-  
hington, the stocking durner on the  
Lost Bag of Tripe a kid brother's nose,  
and that made all of them laugh  
except the Lost Bag of Tripe, and  
when he didn't laugh I told him to  
chuck up because if his kid brother  
grewed up like him he would have to  
get used to having his nose punched.  
Then I fed my face and we went to  
the pasture, with Nibs walking on  
the toes of the foot he had the stone

# Love's Awakening

THE HEART STORY OF A WOMAN'S AFFECTIONS

By ADLIE GARRISON

Momentous News Promises Quick  
Glance to Royal Middle  
The foreboding of the answer  
to my mental query concerning  
the royal members of our interest-  
ing romance came shortly in the  
shape of a cablegram to Harry Lu-  
derwede. That it was in code I knew  
when Lillian brought his code book to  
him as he switched on the reading  
light over a big chair and adjusted  
a small swinging table in front of him.  
Lillian and I were the only other oc-  
cupants of the room, and when I saw  
her put the book on the d or and sit  
down near me, her eyes fast atten-  
tively on her husband, I knew that  
the code document Harry was decyph-  
ing must be of great importance.

I think I came nearer to holding  
my breath during those few min-  
utes of waiting than has been my  
case for many seasons. And when at  
last Mr. Luderwede laid down his  
pencil and looked at us, as if I  
found my throat dry—as if I had  
been running.

Well, asks you, what was your  
small in codes ready?

If you think this is over it is  
justing, young fellow, had just help  
myself to a second one. If I  
Lillian's ten was funny and I  
share her nervousness.

What does your mean anyway? she  
went on acutely. Is the King of  
Trees dead?

No, but the old Inval who is  
next in line to the throne is sick  
last night and the old King of Trees  
is in a pretty bad way. He can't last  
much longer. Our dear Georges will  
be a real link with a golden crown in  
a throne as everything gets you at  
ready if he don't get himself knee led  
in de laus by us.

Lillian grinned reluctantly and I  
saw that her husband had been set  
free from a manifestation rare  
indeed with her.

So Georges is now next in line  
to the throne? she said thoughtfully  
—and I after a second I saw many  
people know this.

You and Mudge and I and a few  
people in Trees, the king, if he is able  
to be told and a few there. The pa-  
pers will probably have it in the morn-  
ing although they keep their death an-  
nouncements both up and up as  
possible over there. It is in the with  
their secretiveness and general uncer-  
tainness.

Shall you tell Georges more  
directly?

There was something in her tone  
which made her husband look

"How can you afford so  
many lovely underthings?"

"I spend less than you do,  
my dear, but . . ."

# My clothes money goes much further now...

Because I have learned how to keep my clothes  
new looking twice as long . . . I use the very  
same method the big movie studios do

I DO have rather an extensive ward-  
robe, though John's salary is a  
modest one.

"That is because I've learned the  
secret of keeping my clothes new look-  
ing a remarkably long time. Instead of  
spending all my clothes money replac-  
ing worn-out things, I buy extra clothes,  
and have a much more varied wardrobe."

"I learned my secret from reading  
about the movies; how they found  
that by always cleansing the screen  
clothes in Lux, they stayed just like new  
more than twice as long."

"It's so simple a method any woman  
can use it. And it certainly works! My  
underthings and hostery and dresses  
now beautifully new looking over so  
much longer. That is how I can afford  
so many pretty things."

You, too, can have more clothes if  
you always use Lux! Because with  
Lux everything you wear stays like new  
so much longer, you'll have money for  
those extra things every woman wants.

**LUX**

CLAN BOW, the screen  
stars, and all the big movie  
makers, use Lux. "It keeps all  
types of body clothes new look-  
ing twice as long."

HOLLYWOOD—The talkies cer-  
tainly haven't hurt Vilma Bank-  
ler's new contract with Sam Goldwyn  
to net the Hungarian Rhapsody  
\$4,000 a week.

THEY'RE telling this 'on on George  
Jessel. George was ambled across  
the Fox lot when suddenly some-  
body whammed him on the right and  
then to the left shoulder. Furious  
Jessel swung around.

The whammer flushed. I big your

George glared. And what of it?  
Even if I was Epstein you needn't  
hit me on the back.

Oh yeah? What do you care what  
I do to Epstein?

PRINCE soon Howard Hughes is  
going to start reshooting the  
story proper for his two million dollar  
aeromatic film. He'll tell that Ben Lyon and James  
Hall will be in the outland version  
even as they were in the silent.  
The only difference is the leading from  
Celia Nissen heretofore originally but  
Celia today is back East somehow re-  
placing with a stock company. Mr.

of years standing. Hence Mr.  
Stevens decided to get Wilson's goat.  
No sooner was he seated than he  
drugged a small box of corn flakes  
from his coat pocket. Open this he  
directed the waiter. The waiter  
diligently obeyed. Later he told  
Mr. Mizner. Mr. Mizner asked if  
Mr. Stevens check and wrote on it.

## OHIO AIR SERVICE OFFICER IS FINED

Lieut. Col. Graham Penalized  
on Intoxication  
Charge

WASHINGTON, July 17—Be-  
cause he was absent without leave  
for three days during which time he  
drank so much liquor he couldn't  
work for a week, Lieutenant Colonel  
Harry Graham of Ohio, commander  
of the air forces of the third corps  
area at Baltimore, has been fined  
\$100 of each month's pay for four  
months, the war department has  
announced.

Graham appeared before a general  
court martial at the corps area head  
quarters on May 21 and pleaded guilty  
to the two charges. The sentence  
and record was approved by President  
Hoover.

The next paragraph of the charge  
covered Graham's absence without  
leave. The second said:  
In that Lieutenant Colonel Harry  
Graham air corps did at Baltimore  
Mile on or about April 1, 1929  
wreckfully drunk intoxicating liquor  
to such an extent as to render him  
self unfit for the performance of duty  
as an officer of the army from about  
April 12 1929 to about April 19  
1929 both days inclusive.

If you did not know the price

THE Town Sedan, illustrated above, is an  
outstanding favorite in the most beautiful,  
modern and varied line of body types Hudson  
ever presented. It is a superb car—big, roomy  
and comfortable—with every appeal to pride,  
every charm and satisfaction the costliest cars  
can give. See it at our color show.

From whatever viewpoint you regard it—  
whether rich appearance, luxurious appoint-  
ment or brilliant performance—if you did not  
know the price, you would say, “There is a  
very costly car.”

On this as on all Hudsons, personal choice of  
color, which has been hitherto  
a limited, costly luxury, is now  
available in many options at no  
extra cost. The variety is so  
great that you may have almost  
individual distinction.

In the many thousands of

Hudsons you see on the highways, observe  
there is no monotony but the refreshing  
interest of individual color expression.

There are 14 body types and two chassis  
lengths in the Greater Hudson—and the  
public verdict, expressed in sales, acclaims them  
the outstanding fine car values in motordom.

## RATES HERE ON FIRE

INSURANCE TO DROP

Reductions Figured on Percentage Effective July 27; To Rerate City

In order to give the public the immediate benefit of the adoption of lower basis tables for fire insurance in this city, certain rate reductions, figured on percentage, are to be offered Marion residents on July 27. This will have no effect on policies dated before July 27.

Marion buildings will be ratered, and according to the new basis tables, the new schedule will be lower. However, considerable time is required to re-rate all cities and it is for this purpose that the reductions figured on a percentage are being made to take effect immediately, giving the customers advantage of the lower rates at once.

It is estimated that rates on private dwellings will be reduced 10 cents per \$100 on three year policies, effecting substantial savings to those taking out such insurance after July 27. This reduction will be in effect until the city is ratered.

Insurance policies carrying certain

reductions in which the purchaser of insurance is awarded damages or lower in proportion to the percentage of insurance he carries on a percentage building, will also get reductions of 4 per cent, but as each building is rated individually, the amount to be saved under this new provision cannot be estimated.

Notice of these changes to become effective July 27 were received from T. B. Sellers, manager of the Ohio Inspection Bureau, of Columbus.

## RATES HERE ON FIRE

INSURANCE TO DROP

Reductions Figured on Percentage Effective July 27; To Rerate City

In order to give the public the immediate benefit of the adoption of lower basis tables for fire insurance in this city, certain rate reductions, figured on percentage, are to be offered Marion residents on July 27. This will have no effect on policies dated before July 27.

Marion buildings will be ratered, and according to the new basis tables, the new schedule will be lower. However, considerable time is required to re-rate all cities and it is for this purpose that the reductions figured on a percentage are being made to take effect immediately, giving the customers advantage of the lower rates at once.

It is estimated that rates on private dwellings will be reduced 10 cents per \$100 on three year policies, effecting substantial savings to those taking out such insurance after July 27. This reduction will be in effect until the city is ratered.

Insurance policies carrying certain

reductions in which the purchaser of insurance is awarded damages or lower in proportion to the percentage of insurance he carries on a percentage building, will also get reductions of 4 per cent, but as each building is rated individually, the amount to be
